---

Matt

I was out last week and have not had an opportunity to return email. The current status on Falcon, is that we have an approved Sample Plan and QAPP for the RI/FS and will be conducting sampling in the June-August timeframe. I am working with the risk assessors to decide what we type of samples and the locations of the samples we want.

Thanks

**Subject:** Falcon Refinery Superfund Site

Hi Brian – I contacted Rafael last year about the RI/FS at the Falcon Refinery. At that time, the RI/FS Work Plan was not approved. What is the current status? I would like to get a copy of the plan if it has been finalized. Has the RI/FS field work been initiated?

Thanks in advance.

Regards,  
Matt
